

CASE STUDY

DexDraw Patent Drawings/Illustrations

Project Need:

The client wanted DexPatent to provide drawings support to file 8 design patents. These 8 design patents should collectively depict a super market with novel shelves, lighting patterns, point of sale appliances etc.,

Solution & Deliverables:

The Client shared with us only photographs of few designs. DexPatent team with innovative thinking has drawn around 69 patent illustrations which collectively depict our client's novel designs in all the views such as front, back, top, bottom, left, right and perspective. It is interesting to note that our team has delivered these 69 drawings within 10 business days.

Benefits:

Since the drawings had been delivered to the client within the expected timeline, the client was very happy and appreciated our team for the speedy delivery with quality meeting USPTO design drawing guidelines. The client has particularly appreciated the draftsmen for proactive & creative thinking on providing all the views from raw input pictures. This will help the examiner to understand the novelty of the design well.
